Career Objective

Enthusiastic and trained Guidewire PolicyCenter developer, recently completed professional training and currently waiting for project allocation. Seeking to contribute to configuration, integration, and development in the insurance domain

Education

Panimalar Engineering College, Chennai, TamilNadu

Nov 2021 – April 2025

- B .Tech in Information Technology | CGPA: 8.2

Skills

Programming: Java, GOSU

Front End Technologies : HTML, CSS

Database : SQL

Guidewire Skills : PolicyCenter Configuration & Integration, SOAP Web Services, Messaging, Plugins

Design : Canva

Tools : Microsoft Office Suite (Word, Power point and Excel), Jupyter Notebook, Eclipse

Internship

TwinTech Solutions | Web Development Intern

Feb 2025 - April 2025

Tech Stack: Laravel, PHP, MySQL

- Developed and maintained PHP and Laravel-based web applications, collaborating with senior developers to debug and enhance functionalities, including building a role-based phishing simulation and training app with campaign wizards, quizzes, certificates, and dashboards.

Experience

Capgemini | Guidewirre Policy Center Training

June 2025 - Present

- Worked on Guidewire Policy Center configuration and integration for insurance domain applications using Gosu language.
- Trained in Configuration: Set up product models, coverages, and policy terms; implemented business rules and validations.
- Trained in Integration: Worked with SOAP web services, configured messaging and batch processes, and developed plugins to extend PolicyCenter functionality.

Projects

Corporate Training And Phishing Simulation Platform

Mar 2025

- Developed a Laravel app with Admin, Manager, and Employee roles to manage companies, courses, and phishing campaigns.
- Enabled course assignment with video/PDF content, quizzes, auto-certificates, and engagement tracking.
- Designed interactive dashboards with filters (monthly, quarterly) using Chart.js, and tabular reports using DataTables.

Certificate

- Java Programming in Great Learning
